F.No. 23(20)/2004-KCC/ET
Government of India
Ministry of Agriculture
Department of Agriculture & Cooperation

Krish Bhawan, New Delhi
Dated April 7, 2011

To,

APCs/Principal Secretaries/Secretaries/Commissioners/Directors,
Agriculture & Pr. Secretaries/Secretaries, IT of all States & UTs

Subject: Restructuring & Strengthening of Kisan Call Centres

Sir,

During discussion held on different forums about revamping and re-designing of Kisan Call Centre Scheme being run by this Department, the State Governments had been requested to get proactively involved in Kisan Call Centre(KCC) Scheme not only in supervising the quality of extension services provided by the KCC agents but also in ensuring that the revised escalation matrix (Annexure I) under the Kisan Knowledge Management System (KKMS) [http://dackkms.gov.in/KKMS/] is firmly put in place. In order to take this process forward and to further improve functioning of KCCs, a major ad-campaign has been launched on electronic media regarding KCCs. This has increased the number of incoming calls manifold during the last 18 months. DAC has been working very closely with the BSNL to get data regarding attempted calls and thereby revise the number of seats in each of these Call Centres. The KCC software itself has been
modified substantially so as to ensure a key role for functionaries of State Department of Agriculture and allied sectors.

During visit to various KCCs in the country by the officers of this Department and the undersigned, systemic issues have been noticed. Therefore, I would request you to kindly take the steps listed in Appendix-I to improve functioning and to enhance efficacy of these KCCs.

To summarize, following actions need to be initiated by the State Government to put the modified KCC scheme in operation immediately:

- Supervision of quality & speed of service delivery by the KCCs and provision of additional information to the KCCs by the State Departments of Agriculture & Allied Sectors.
- Sensitization workshops at State and District levels. The latter may include block level functionaries as well.
- Provision of latest versions of guide books and booklets issued by the State Agriculture Department or the Agricultural Universities.
- Communication of login IDs & passwords to various officers at different levels. These are being sent through another communication.
- Coordination with the State IT Department to get the scheme rolled out through the CSCs. The Service Centre Agencies (SCAs) may need to be intimated about the login details being conveyed separately.
- Finalization of schedule of monthly video conference with various Divisions/Zones in the State and organization of these workshops regularly thereafter.
- Appointment of a Nodal Officer for KCCs
- Orientation programme of CSC agents.
- Implementation of escalation matrix in toto and ensuring that higher level officers keep a track of the answers given at lower level, so that an erroneous answer (if any) can be rectified, if time
permits. Otherwise, an advisory may be issued to such lower level officer.

- Fixing of charges for services rendered by CSC agents.
- Provision of basic computer infrastructure and internet connectivity at the District and Block levels.
- Submission of data for Farmers' Portal and KKMS if the same has not already been done. If State level package of practices has already been provided, then compilation may now be done in soft form (as per the earlier templates only) for each NARP zone in your State.
- This circular may be shared with Secretaries/Directors of Horticulture, Animal Husbandry & Fisheries Departments.

Salient aspects of the proposed changes have been briefly dealt with and it is possible that some nebulous areas still remain. Therefore, you are requested to revert to the undersigned by e-mail or telephone for clarifications, if any.

Yours faithfully,

(Sanjeev Gupta)

Copy to:

1. Secretary, IT to the Government of India with a request that integration with Common Service Centres as proposed above and developed in consultation with the officers concerned in the DIT, GoI may kindly be facilitated.

2. The Director General, National Informatics Centre with a request to direct the State Information Officers to organise Video Conference with different Divisions/Zones of the State every month as per the schedule to be communicated by the State Agriculture Department.

3. All Additional Secretaries/Joint Secretaries in the DAC with a request to sometimes make the visit to the Kisan Call Centres when they visits various States.

4. Sr. PPS to Secretary(A&G) for information of the Secretary.
MEASURES NEEDED FOR SUPERVISION & IMPLEMENTATION OF MODIFIED KKMS/KCC SCHEME

i) Locations, contact details and Yahoo Messenger IDs of the KCCs located in your State have been tabulated in Annexure-II to this letter. **All call centres have installed the web camera, so that quality of responses and general activities of the KCC can be monitored online using Yahoo Messenger.** In addition to this, the officers of the State Government can periodically visit the KCCs and supervise and evaluate functioning of KCCs. Condition of computer hardware and use of KCCs/KKMS software may also be assessed by closely watching functioning of some agents. **Moreover, since answer given by KCC agents and other officers shall be available online at higher levels of hierarchy, periodic guidance can be provided to the KCC agents.**

ii) The Government of India and the State Governments come up with numerous initiatives, schemes and advisories/contingency plans from time to time. It is necessary to keep the KCC agents apprised of all such developments through e-mail, so that they can answer farmers’ queries in this regard.

iii) While KKMS and other web-based interfaces give adequate information which is useful to the farmers, still the KCC agents very often use the guide books and booklets brought out by the State Government and the local Agricultural Universities. **Therefore, it is necessary that the latest versions of these books are provided to the KCC agents.** The KKMS is currently structured to include Package of Practices and Good Agricultural
Practices for different parts of the State in the shape of a searchable database. Other farmer related information such as seed varieties, availability of inputs, list of dealers, machinery & equipment etc. is being made available on the Farmers’ Portal developed by this Department. A KCC/CSC (Common Service Centre) agent is expected to use both these databases for the benefit of farmers.

iv) Every State has quite a few NARP zones having different problems and issues. Therefore, interaction of KCC agents with the Divisional /Zonal level officers of the State Agriculture and allied departments needs to be organized every month on pre-announced dates at the video conference either in the University campus or through State Informatics Centre, for which NIC is being requested separately. These video conferences may need to be held in such a manner that every KCC agent gets at least a bi-monthly exposure to various issues in different parts of the State.

v) The KCCs are being directed to give a weekly feedback to the State Department of Agriculture & allied Departments regarding the nature of calls including area specific prevalence of crop diseases, pest infestation etc. In order to ensure that this is a two-way communication channel, the Commissioner/Director of Agriculture should ensure that a designated Nodal Officer gets across to the KCC supervisor periodically.

vi) You may also be aware that Common Service Centres (CSCs) set up in PPP Mode by the Department of IT are also being established for a group of villages throughout the country. It is envisaged that farmers can access information regarding the package of practices of agriculture, horticulture, animal husbandry, dairying & fisheries sectors available in KKMS, either directly or through Common
Service Centres (CSC). The CSC agents can log onto KKMS or respective websites to answer queries and if this is not possible, they may escalate queries to higher levels. The CSCs can also upload photographs along with description of the problem, if farmer comes with specimens of crops affected by diseases. For this purpose also, an interface has been developed. The CSCs will give an acknowledgement of the query posted in the prescribed format. The amount to be charged by CSC agents for registering a query will not normally exceed Rs. 5/- per case including the printing cost of acknowledgement slip. Answers to the queries which are not given immediately, will be sent by post (or directly to the farmer if a definite date is indicated for giving the answer). The charges for giving print-out of answer/solution will not exceed Rs. 2 per page in addition to postal charges. Notwithstanding these broad upper limits indicated above, the State Government will be free to fix exact charges which can be levied by a CSC.

vii) The database of farmers' queries given at CSC will also be available at KCC and vice versa. Thus, a KCC agent can convey solution to a CSC query by making an outbound call to the farmer.

viii) As may be seen from Annexure – I, the queries will be escalated to Block level first (Level – II) from the CSC/KCC agents. If Block level officer does not reply the query within the specified time, queries automatically get escalated to District (Level-III) & thereafter to State (Level-IV). There may be some Blocks where either IT infrastructure or broadband connectivity may not be available, such blocks need not be assigned codes as of now and queries in such cases will get directly escalated to the district level. At the District level, experts/officers from the Agriculture and allied departments shall be responsible for reply to the queries escalated from the CSCs, if necessary, after taking
inputs from the KVKs. Similarly, even though queries will be parallely escalated to the SAUs concerned, the Head of the Department at the State level will ensure that an appropriate reply is conveyed by his/her Department within the prescribed time limits. The login IDs and passwords for these CSC agents are being conveyed separately in consultation with Department of IT, Government of India.

ix) In order to provide distinct login IDs to various officers of the State Government, KVKs and SAUs from block level upwards, the following coding scheme is envisaged:

**Block Level:**

SSG-DDDG-BBBB-Ag01/Ho01/Ve01/Fy01

Where SS, DDD & BBBB are 2, 3 and 4 digit numerical codes as per Ministry of Panchayati Raj and Ag01/Ho01/Ve01/Fy01 denote first Agriculture Officer, Horticulture Officer, Veterinary Officer and Fisheries Officer respectively posted at the Block Level. Therefore, for instance, if there is only one Horticulture Officer posted in Dinapur Block of District Patna in Bihar, his login code would be 03G-301G-1954-Ho01. Letter G has been added in front of the State Code and the District Code to distinguish it from University and KVK respectively where letters U and K respectively shall be used after State and District codes.

**District Level:**

Here, the codes in case of District Level Officers of the State Government would be

SSG-DDDG-0000-Ag01/Ho01/Ve01/Fy01. Naturally, the 2nd and 3rd Agriculture related officers will be called Ag02, Ag03 etc.

In case of a KVK, the code would look like as follows:

SSU-DDDK-0000-Ag01/Ho01/Ve01/Fy01
State Level:

Relevant codes for the State Level and SAU scientists will be as follows:
SSG-0000-0000- Ag01/Ho01/Ve01/Fy01
SSU-0000-0000- Ag01/Ho01/Ve01/Fy01

The State’s district and block codes for your state are being conveyed separately by email.

x) The level-II expert (Block) should reply within 3 – 4 days of query logged in and the unanswered query should get escalated to District Level (L-III) within one week. In case L-III does not answer the query within 7 days of receipt of query from the Block, the same will be escalated to the State Level within 10 days. Kindly note that these are outer time limits. Urgent matters will need to be attended to more promptly. **If discussion with the farmer is necessary to resolve the query or to render proper advice, a conference call with the farmer can be held by dialing the Kisan Call Centre at 1800-180-1551.**

xi) The Frequently Asked Questions (FAQs) and other locally relevant information at the district/state level may need to be updated after appropriate authentication and validation of such solution or answer given by authorized call centre agents. Such validation will be done not below the level of the District In-charge of Agriculture (or allied sectors) Department in a State for Block level FAQs and Director Agriculture (or allied sectors) in case of District level FAQs.

xii) Some States like Madhya Pradesh, Andhra Pradesh & Kerala have separate KCCs run by the State Government. Therefore, as mutually agreed during the “Orientation-cum-Review Workshop on Modified ATMA Scheme” held on 3 – 4 August, 2010 these State Governments are requested to take steps to merge these 2 call
centres at a central location accessible through the all India toll free No. of 1800-180-1551 as this number has been widely publicised through nation-wide Television, Radio & Newspaper advertisements. **In such a situation, required funding for the Call Centre agents as well as for call inflow to these KCCs can be paid for by the Government of India.** The State Government can supplement by continuing to provide instantaneous technical inputs (through the staff deployed so far in the KCCs being run by the State) to assist these call centre agents in discharging their duties. Some Universities have volunteered to locate the KCC in their premises. Your State may also like to take a lead in this regard, so that technical back up of experts is readily available to the agents who will be better located to update their knowledge periodically.
Call Receiving and Escalation Matrix in Kisan Call Centre (KCC)

1. Farmer makes query through Common Service Centers (CSC)
   - CSC Agent logs in Kisan Knowledge Management System (KKMS), records farmer's data & submit Query

2. Query Answered by KKMS
   - Yes: Record & Close Call in KKMS
   - No: Call Escalation to Block Level Officer (L2) by CSC using KKMS

3. Block level officer attends query using KKMS within 3 days
   - Yes: KKMS escalates query to District level officer (L3)/KVK (Automated Process)
   - No: Pop-up answer to CSC by KKMS (Automated Process)

4. Pop-up answer to CSC by KKMS (Automated Process)
   - Yes: Welcome Message by Agent
   - No: Record answer to query in KKMS & Close Query

5. Welcome Message by Agent
   - Yes: Query Answered
   - No: Call L2/L3 at Predefined Number

6. Call L2/L3 at Predefined Number
   - Yes: Establish Conference Calls
   - No: Generate MIS Reports

7. District level officer attends query using KKMS within 7 days
   - Yes: Answer Query
   - No: District level officer Escalates query to State level officer (L4)/SAU (Using KKMS)

8. District level officer Escalates query to State level officer (L4)/SAU (Using KKMS)
   - Yes: Query Answered by Level 2/3 Expert
   - No: Reminder to State level officer (L4)/SAU by KKMS

9. Pre-recorded IVR Prompt
   - Within 6AM to 10 PM?
     - Yes: Record & Close Call
     - No: No Option 1/2

10. Option 1
    - Call L2/L3 at Predefined Number
    - Establish Conference Calls

11. Query Answered by Level 2/3 Expert
    - Yes: Generate MIS Reports
    - No: No Option 1/2

12. Option 2
    - No: No Option 1/2

13. Record & Close Call
    - No: No Option 1/2
